Flexible learning, trusted expertise

People learn in different ways, so we've devised a range of delivery formats to suit all needs.

Whether you prefer learning at your own pace through distance learning or enjoy the challenge and interaction in classroom-based learning – we can provide a format that works for you.

Live online training

Learn from the comfort of your home or a quiet space, for convenience

Classroom-based training

Convenient locations and dates, in-person with like-minded learners

On-demand eLearning

Self-paced, online, available 24/7 – for complete flexibility

In-house training

In-person or online to suit your organization's needs

BS ISO/IEC 24027:2021 Bias in AI Systems and AI Aided Decision-making Awareness On-demand eLearning

Through this course, participants will gain a deeper understanding of the concept of bias and learn practical approaches to evaluate and address bias in AI systems.

Prerequisite: Basic understanding of AI, machine learning (ML), and neural networks.
Price: $125
Duration: 1 hour

Find out more

BS ISO/IEC 24027:2021 Bias in AI Systems and AI Aided Decision-making Introduction On-demand eLearning

Learn the technical skills to remove bias and ensure fairness in your AI systems with this course.

Prerequisite: Basic understanding of AI, machine learning (ML), and neural networks.
Price: $125
Duration: 2 hours

Find out more

ISO/IEC 24029-1:2021 How to assess robustness of neural networks awareness eLearning

This course will explore the main principles and the importance of implementing robust deep learning systems, as outlined in ISO/IEC 24029-1:2021.

Prerequisite: N/A
Price: $49
Duration: 30 minutes

Find out more

ISO/IEC 24029-1:2021 - Introduction to robustness for neural networks eLearning

This course aims to give you knowledge of the main technical concepts of ISO/IEC 24029-1:2021, by explaining the different methods through which robustness can be assessed.

Prerequisite: N/A
Price: $145
Duration: 2.5 hours

Find out more

Artificial Intelligence (AI)

ISO/IEC TS 4213:2022 - Assessment of machine learning classification performance - Part 1 eLearning

This course will help you understand the general principles behind assessing the classification performance of an AI system.

Prerequisite: N/A
Price: $125
Duration: 1 hour

Find out more

ISO/IEC 22989:2023 Understanding AI Concepts and Terminology

Build a strong foundation in AI concepts and management system standards, essential for anyone working with AI systems.

Prerequisite: N/A
Price: $995
Duration: 1 day

Find out more

The EU Artificial Intelligence Act On-demand eLearning

This on-demand training provides you with an understanding of the various articles of the EU AI Act and how your organization can comply with these requirements.

Prerequisite: N/A
Price: $195
Duration: 3.5 hours

Find out more

ISO/IEC TS 4213:2022 - Assessment of machine learning classification performance - Part 2 eLearning

The focus of this course is to understand the general principles behind assessing the classification performance of an AI system.

Prerequisite: N/A
Price: $145
Duration: 2 hours

Find out more

ISO/IEC 22989:2023 Understanding AI Concepts and Terminology On-demand eLearning

Master the key AI terms and concepts from ISO/IEC 22989 to effectively manage an ISO/IEC 42001 compliant AI Management System (AIMS).

Prerequisite: N/A
Price: $345
Duration: 4 hours

Find out more

AI Management Practitioner Qualification

Our AI Management Practitioner qualification equips you with the knowledge and skills to assess the conformance and implementation of an Artificial Intelligence Management System agnostically; with its family of standards:

- understand of the concepts which underpin ISO/IEC 22989:2023 as a normative reference in ISO/IEC 42001:2023
- determine the necessary controls for effective implementation from the 38 risk controls, as a risk-based standard ISO/IEC 42001:2023
- build a risk management system based on ISO/IEC 23894:2023
- be provided with the understanding and tools to conduct an AI System Impact Assessment, either in isolation or as part of an ISO/IEC 42001:12023 AI management system

These 5 courses are all available on demand for added flexibility.

- bsi ESG Manager PROFESSIONAL

Sustainability

ISO 14001:2015 Environmental Management Systems Awareness On-demand eLearning

Understand the importance of environmental management and how to contribute to its effectiveness in your organization.

Prerequisite: N/A
Price: $49
Duration: 30 minutes

Find out more

ISO 14001:2015 Environmental Management Systems Requirements On-demand eLearning

Identify the structure and requirements of an effective Environmental Management System (EMS) and what this means to you. Gain a thorough understanding of the history and development of ISO 14001, key terms, definitions and the ISO standardized high level structure.

Prerequisite: N/A
Price: $245
Duration: 4 hours

Find out more

ISO 14001:2015 Environmental Management Systems Requirements

Identify the structure and requirements of an effective Environmental Management System (EMS) and what this means to you. Gain a thorough understanding of the history and development of ISO 14001, key terms, definitions and the ISO standardized high level structure.

Prerequisite: N/A
Price: $1395
Duration: 1.5 days

Find out more

ISO 14001:2015 Environmental Management Systems Requirements and Management Systems Auditing

Our expert trainers will guide you through the ISO 14001 standard in detail and you'll learn what it takes to plan, conduct and report on an audit.

Prerequisite: N/A
Price: $2295
Duration: 3.5 days

Sustainability

ISO 14001:2015 Environmental Management Systems Lead Auditor

Gain the skills and confidence to effectively audit an Environmental Management System (EMS) to ISO 14001.

Prerequisite: Knowledge of ISO 14001 and EMS principles. Internal/lead auditor training or auditing experience is helpful.
Price: $3495
Duration: 5 days

Find out more

ISO 14001:2015 Environmental Management Systems Senior Management Briefing

Identify the core requirements of ISO 14001 with regards to the Leadership Team, and their commitments to environmental impact improvement.

Prerequisite: N/A
Price: Request a quote
Duration: 2 hours

Find out more

ISO 14064-1:2018 Requirements On-demand eLearning

Obtain a detailed understanding of the key terms, definitions and requirements of ISO 14064-1 and how the standard can help your organization to better understand and quantify its greenhouse gas emissions.

Prerequisite: A basic understanding of global warming issues would be helpful.
Price: $125
Duration: 3.5 hours

Find out more

Greenhouse Gas Quantification and Reporting Requirements

Master the requirements of ISO 14064-1 for quantifying and reporting Greenhouse Gas Emissions.

Prerequisite: Some knowledge of the standard and global warming issues will be beneficial.
Price: $1495
Duration: 2 days

Find out more

ISO 14064-3 Greenhouse Gas Verification and Validation

Ensure accurate and credible Greenhouse Gas (GHG) reporting. This course covers the principles and processes of verification and validation according to ISO 14064-3.

Prerequisite: Knowledge of ISO 14064-1 and GHG quantification is required. Familiarity with carbon neutrality planning and relevant standards is beneficial.
Price: $895
Duration: 1 day

Find out more

Lead Greenhouse Gas Verifier and Validator

This course will enable you to effectively plan, lead, and approve the output of these exercises, and advance your leadership techniques for assessing organizational ambition and aspirations regarding GHG emissions, removals, and net zero.

Prerequisite: Delegates are expected to be existing GHG Practitioner holders or scheduled to complete the prerequisite training within a 12-month period.
Price: $895
Duration: 1 day

Sustainability

ISO 50001:2018 Energy Management Awareness On-demand eLearning

Understand energy management, its importance, associated risks, and how to improve your organization's energy performance.

Prerequisite: N/A
Price: $49
Duration: 30 minutes

Find out more

ISO 50001:2018 Energy Management Requirements On-demand eLearning

Gain a comprehensive understanding of ISO 50001 and Energy Management Systems with the convenience of online, self-paced learning.

Prerequisite: N/A
Price: $245
Duration: 4 hours

Find out more

ISO 50001:2018 Energy Management Implementing

Learn the fundamentals of energy management, including ISO 50001 requirements, and how to implement and maintain an effective Energy Management System.

Prerequisite: Completion of an Energy Awareness course and an ISO 50001 Requirements Training Course (see ISO 50001 Requirements course).
Price: $1495
Duration: 2 days

Find out more

ISO 50001:2018 Energy Management Lead Auditor

Develop the skills to lead effective second-party Energy Management Systems audits, covering all stages from planning to follow-up.

Prerequisite: Knowledge of management systems (including the PDCA cycle), energy management principles (including energy sources, efficiency, and performance indicators), and ISO 50001 requirements.
Price: $3495
Duration: 5 days

Find out more

Carbon Neutrality Requirements

Provide knowledge and understanding of carbon neutrality and how to use ISO 14068-1 in your organization to achieve carbon neutrality, on the pathway to Net Zero.

Prerequisite: N/A
Price: $995
Duration: 1 day

Find out more

Climate Change Management – Carbon Neutrality

Gain clear guidance on achieving carbon neutrality, including developing a management plan, quantifying your carbon footprint, and utilizing offsets.

Prerequisite: N/A
Price: $1495
Duration: 2 days

Sustainability

Carbon Management Planning

Develop a comprehensive carbon management plan using science-based methodologies to reduce Greenhouse Gas (GHG) emissions and adapt to climate change.

Prerequisite: A copy of PAS 2060 is required for this course (available at https://shop.bsigroup.com).
Price: $1495
Duration: 2 days

Find out more

ISO 14067:2018 Quantifying the Carbon Footprint of Products

Understand ISO 14067 and how to quantify the carbon footprint of products (CFP) using best practices in Life Cycle Assessment (LCA) and reporting.

Prerequisite: Completion of ISO 14064-1 and Carbon Management Planning courses is required.
Price: $1495
Duration: 2 days

Find out more

PAS 2080:2023 Carbon Management in buildings and infrastructure

This course outlines the terminology and describe key principles of decarbonization and carbon reduction hierarchy, required of PAS 2080.

Prerequisite: N/A
Price: $895
Duration: 1 day

Find out more

PAS 2080:2023 Carbon Management in buildings and infrastructure On-demand eLearning

This course outlines the terminology and describe key principles of decarbonization and carbon reduction hierarchy, required of PAS 2080.

Prerequisite: N/A
Price: $145
Duration: 3.5 hours

Sustainability

United Nations Sustainability Development Goals Essentials

This essentials training course highlights the benefits of an effective commitment to the UN SDGs and introduces you to the key concepts and signposts to the relevant associated standards and current case studies.

Prerequisite: A basic understanding of global warming issues would be helpful.
Price: $695
Duration: 5 hours

Find out more

BS 25700 Modern Slavery Introduction

Develop a deeper understanding of modern slavery and equip your organization to identify and mitigate related risks.

Prerequisite: N/A
Price: $125
Duration: 2 hours

Find out more

Social Accountability 8000 Awareness On-demand eLearning

This course offers a foundational understanding of social accountability requirements, providing participants with the knowledge necessary to support the implementation and auditing of these practices within their organizations.

Prerequisite: N/A
Price: $49
Duration: 30 minutes

Find out more

Social Accountability 8000 Requirements On-demand eLearning

Gain a foundational understanding of social accountability and learn how to implement and audit responsible practices based on SA 8000. This self-paced course helps you contribute to a more ethical and equitable workplace.

Prerequisite: N/A
Price: $245
Duration: 3.5 hours

Find out more

ISO 20400 Sustainable Procurement Awareness On-demand eLearning

Learn procurement principles and the "five rights of procurement" and how they contribute to sustainable procurement.

Prerequisite: N/A
Price: $49
Duration: 30 minutes

Find out more

ISO 20400 Sustainable Procurement Introduction On-demand eLearning

The course explains how procurement is impacted by, and impacts on, issues of social, environmental, and economic sustainability.

Prerequisite: N/A
Price: $195
Duration: 3 hours

Find out more

Sustainability

Fundamentals of Net Zero On-demand eLearning

Introduces the essential concepts of Net Zero, including the role of greenhouse gas (GHG) emissions, global initiatives to achieve Net Zero by 2050, and practical strategies for reducing emissions.

Prerequisite: N/A
Price: $245
Duration: 4 hours

Find out more

Fundamentals of Net Zero Awareness On-demand eLearning

This course introduces the principles of Net Zero, examines global efforts and the roles of individuals, organizations, and governments, and equips you with practical steps to support initiatives and drive meaningful impact.

Prerequisite: N/A
Price: $49
Duration: 30 minutes

Find out more

Road to Net Zero - Carbon Neutrality On-demand eLearning

This on-demand course provides a practical understanding of carbon neutrality, including key concepts, processes, planning steps, offsets, and verification.

Prerequisite: existing knowledge and understanding of GHG emissions and removals quantification, GHG reporting, and carbon reduction strategies
Price: $195
Duration: 4 hours

Find out more

Managing Scope 3 Greenhouse Gas (GHG) Emissions

Focuses on defining, identifying, and reporting Scope 3 emissions within supply and value chains, emphasizing their role in achieving net zero targets. Builds on BSI's GHG Practitioner training and does not cover GHG standards requirements or reporting frameworks.

Prerequisite: N/A
Price: $895
Duration: 1 day

Find out more

Social Auditing and Modern Slavery

To introduce delegates to the core principles and practices of social auditing, including Modern Slavery, the ETI Base Code, OHS/EMS considerations, business risk, and relevant global frameworks, preparing participants to support audit readiness for schemes like SMETA, SA8000, PAS 7000, and second-party supply chain assessments.

Prerequisite: N/A
Price: $895
Duration: 1 day

Greenhouse Gas (GHG) Qualifications

Qualifications build knowledge and skills both for the individual and organization to reach Greenhouse Gas objectives.

The **practitioner** level qualification is ideal for individuals who are involved or working towards being involved in Greenhouse Gas reduction plans.

The **professional** level builds Greenhouse Gas knowledge to support an organization's path towards net-zero.

Our learning pathway validate learning with examinable results, earning industry recognized qualifications.

Key

ILT – instructor led learning

VILT – Virtual instructor led learning

OD – on-demand eLearning

Greenhouse Gas Practitioner

Comprised of these courses:
- ISO 14064-1 (organization)**
- Carbon Management Planning (CMP)
- ISO 14064-3 (verification)

Delivery method:
**On-Demand and ILT/VILT
ILT/VILT

Ideal for:

- GHG/carbon reduction and management practitioners, engineers and facilities managers with knowledge and experience of related disciplines and standards such as environmental and energy management systems including ISO 14001 and ISO 50001
- Individuals interested or required to support carbon reduction plans
- Policy analyst, consultant, sustainability manager
- Verifier, assessor, auditor, implementor

Greenhouse Gas Professional

Comprised of these courses:
- ISO 14067 Quantifying the Carbon Footprint of Products
- ISO 14068-1 Carbon Neutrality

Delivery method:
ILT/VILT

Ideal for:

- GHG/carbon reduction and management professionals, developing and leading the implementation of carbon reduction management programs
- Functional head, project leader, senior consultant
- Lead verifier, lead assessor, lead auditor, lead implementer

ESG Manager Qualifications

3 – day
ESG Manager

Exam

ESG strategic management and disclosure

- Framework of implementing ESG
- ESG disclosure standards and practices

4 – day
ESG Manager
Advanced

Exam

Essential ESG topics

- E: Management of environment, energy and carbon
- S: Health, work safety and social accountability
- G: Management of risk, compliance, cyber security

4 – day
ESG Manager
Professional

Exam

Global ESG trend and cutting-edge topics

- E: Management of product carbon, carbon neutrality, water efficiency, and circular economy
- S: Human resource management and anti-slavery
- G: Management of anti-bribery and privacy information
- Supply chain management and sustainable procurement

- The 3 – day ESG Manager equips practitioners with essential principles, frameworks, and disclosure standards to align strategy with stakeholder and regulatory expectations.
- The 4 – day ESG Manager Advanced builds on the ESG Manager Qualification, providing practical skills to implement and improve ESG systems using key international standards like ISO 14064-1, ISO 14001, and SA 8000.
- The 4 – day ESG Manager Professional empowers experienced professionals to lead complex sustainability initiatives such as climate neutrality and circular economy, using globally recognized frameworks and scientific approaches.
- **Ideal for:**
    - ESG managers, practitioners, consultants, researchers, and NGO professionals seeking expertise in ESG strategy, technical standards, and best practices.

Governance, risk & compliance

Our Governance, Risk and Compliance (GRC) courses will provide you with an awareness of the processes you can implement to help your organization achieve business objectives and act with integrity.

Gain the knowledge and skills needed to embed good business practices into everyday life - enabling your organization to seize opportunities, stay ahead of uncertainty, and meet stakeholder expectations.

Governance, risk & compliance

ISO 22301:2019 Business Continuity Requirements

Apply the requirements of ISO 22301 to create and maintain a Business Continuity Management Systems (BCMS) that ensures business continuity.

Prerequisite: N/A
Price: Request a quote
Duration: 1 day

Find out more

ISO 22301:2019 Business Continuity Requirements On-demand eLearning

Learn ISO 22301 at your own pace with this flexible online course. Ideal for self-directed learners.

Prerequisite: N/A
Price: $245
Duration: 4 hours

Find out more

ISO 22301:2019 Business Continuity Implementation

Learn how to establish a business continuity management system within your organization and clarify roles and responsibilities during disruption.

Prerequisite: Familiarity with BCMS concepts and terminology is recommended. Consider ISO 22301 Requirements course.
Price: Request a quote
Duration: 2 days

Find out more

ISO 22301:2019 Business Continuity Lead Implementer

Learn to identify and protect business critical functions, build organizational resilience and capability to continue operating during unexpected events. Understand how to minimize downtime, speed up recovery time and reassure stakeholders.

Prerequisite: N/A
Price: Request a quote
Duration: 5 days

Find out more

ISO 22301:2019 Business Continuity Internal Auditor

Learn how to perform internal audits and self-assessments against the requirements of ISO 22301.

Prerequisite: Knowledge of ISO 22301 and Business Continuity Management Systems (BCMS) principles (see ISO 22301 Requirements course).
Price: Request a quote
Duration: 2 days

Find out more

ISO 22301:2019 Business Continuity Lead Auditor

Develop the skills and knowledge to establish a robust Business Continuity Management Systems (BCMS) that ensures business continuity in the face of disruptions.

Prerequisites: Knowledge of management systems (including the PDCA cycle and core elements), business continuity management concepts (including BIA, risk assessment, and business continuity plans), and ISO 22301 requirements.
Price: Request a quote
Duration: 5 days

Governance, risk & compliance

ISO 31000:2018 Risk Management Introduction

Learn how to apply the principles of ISO 31000 to improve risk management in your organization.

Prerequisite: N/A
Price: $895
Duration: 1 day

Find out more

ISO 31000:2018 Risk Management Implementation

Master risk management and implement ISO 31000 in your organization. Learn to assess your current risk position and develop a tailored implementation plan. This course provides a step-by-step approach to building a robust risk management process.

Prerequisites: Prior understanding of ISO 31000 (see our Risk Management Introduction course).
Price: $1495
Duration: 2 days

Find out more

Crisis and Incident Management

Learn how to effectively manage a range of incidents with confidence.

Prerequisite: N/A
Price: Request a quote
Duration: 1 day

Find out more

ISO 31000:2018 Risk Management Introduction On-demand eLearning

Develop an understanding of how to manage risk and use ISO 31000:2018 to improve their overall performance.

Prerequisite: N/A
Price: $245
Duration: 3.5 hours

Find out more

Risk Management Essentials for Small Businesses

Gives you the knowledge and skills to enable you to identify and address these challenges and risks by applying the risk management process.

Prerequisite: N/A
Price: $895
Duration: 1 day

Built environment

The built environment is a complex interaction between design, construction, operations, and decommissioning, representing the four stages of the asset lifecycle.

In the face of these intricacies, you hold the key to creating liveable and workable spaces that benefit everyone.

Built environment

ISO 19650 Part 1: Building Information Modelling (BIM) Fundamentals

Understand the key principles and benefits of Building Information Modelling (BIM). This course explores how BIM drives efficiency and optimizes the entire project lifecycle, leading to greater whole-life value. Gain the knowledge to implement BIM in your organization and achieve a strong return on investment.

Prerequisite: N/A
Price: $1995
Duration: 2 days

Find out more

ISO 19650 Part 1: Building Information Modelling (BIM) Fundamentals On-demand eLearning

Provide you with an understanding of why and how Building Information Modelling (BIM) supports lean principles to reduce waste in construction and asset management.

Prerequisite: N/A
Price: $745
Duration: 8 hours

Find out more

ISO 19650 Part 2: Building Information Modelling (BIM) Project Delivery Phase

Go beyond Building Information Modelling (BIM) fundamentals with this course on project information management for BIM Level 2, covering ISO 19650-2, information requirements, and supplier selection.

Prerequisite: For those with BIM knowledge (e.g. BIM Fundamentals) and construction project experience, especially in information management.
Price: $995
Duration: 1 day

Find out more

ISO 19650 Part 3: Building Information Modelling (BIM) Information Management in the Operational Phase

Implement ISO 19650-3 to optimize asset operations. This course is ideal for asset owners, operators, and maintainers.

Prerequisite: BIM knowledge (e.g. BIM Fundamentals) and asset information management experience.
Price: $995
Duration: 1 day

Find out more

ISO 19650 Part 4: Building Information Modelling (BIM) Information Exchange

Learn how to leverage ISO 19650 for effective digital information exchange in Building Information Modelling (BIM), emphasizing the Common Data Environment (CDE) process and information verification for building trust.

Prerequisite: Ideal for professionals who actively participate in the management of projects and portfolios.
Price: $995
Duration: 1 day

Find out more

bsigroup.com/training-nz

Built environment

ISO 19650 Part 5: Building Information Modelling (BIM) Security-mindedness

Understand the role of the security manager, and how to identify security risks relating to built assets and their information in the Building Information Modelling (BIM) context.

Prerequisite: Ideal for professionals who actively participate in the management of projects and portfolios.
Price: $995
Duration: 1 day

Find out more

ISO 19650 Part 2: Building Information Modelling (BIM) Project Delivery Phase On-demand eLearning

Help you understand the information management processes that are needed for a design and construction project to be delivered using BIM according to ISO 19650 Part 2: Project Delivery Phase

Prerequisite: Some knowledge of BIM Implementation; BIM Fundamentals recommended.
Price: $245
Duration: 3.5 hours

Find out more

ISO 19650 Part 5: Building Information Modelling (BIM) Security-mindedness On-demand eLearning

This course equips you to identify security threats, assess risks, and implement a security-minded approach to BIM through effective planning and information management.

Prerequisite: For those with BIM knowledge (e.g. BIM Fundamentals, BIM Part 1, 2, 3 and 4) and construction project experience, especially in information management.
Price: $245
Duration: 2.5 hours

Find out more

ISO 19650 Part 6: Building Information Modelling (BIM) Health and Safety

Learn how to effectively exchange health and safety information in Building Information Modelling (BIM), emphasizing the importance of clear requirements and a digital plan.

Prerequisite: Ideal for professionals who actively participate in the management of projects and portfolios.
Price: $995
Duration: 1 day

Find out more

ISO 19650 Part 4: Building Information Modelling (BIM) Information Exchange On-demand eLearning

Learn how to leverage ISO 19650 for effective digital information exchange in Building Information Modelling (BIM), emphasizing the Common Data Environment (CDE) process and information verification for building trust.

Prerequisite: For those with BIM knowledge (e.g. BIM Fundamentals, BIM Part 1, 2, 3) and construction project experience, especially in information management.
Price: $345
Duration: 3.5 hours

Find out more

ISO 19650 Part 6: Building Information Modelling (BIM) Health and Safety On-demand eLearning

This intensive course will help you obtain the benefits of structured health and safety information and its digital information exchange amongst design/supply chain and the client/operator.

Prerequisite: For those with BIM knowledge (e.g. BIM Fundamentals, BIM Part 1, 2, 3, 4, and 5) and construction project experience, especially in information management.
Price: $345
Duration: 3.5 hours

Food & retail

FSSC 22000 v6 Understanding

Gain a thorough insight into food safety management systems and the key concepts and structure of FSSC 22000, key terms, definitions and the ISO standardized high level structure.

Prerequisite: N/A
Price: $695
Duration: 1 day

Find out more

FSSC 22000 v6 Internal Auditor

This course equips you with skills to assess and report on process conformance under FSSC 22000, covering audit initiation, preparation, conduct, reporting, and follow-up tasks.

Prerequisite: Familiarity with FSSC 22000 and Food Safety Management Systems (FSMS) is recommended.
Price: $1495
Duration: 2 days

Find out more

FSSC 22000 v6 Lead Auditor

This course updates you on food safety developments, empowering you to drive continual business improvement through effective audits aligned with FSSC 22000 and ISO standards.

Prerequisites: Solid understanding of FSSC 22000, ISO 22000, and relevant ISO 22002 prerequisite program. FSMS audit experience is recommended.
Price: $3495
Duration: 5 days

Find out more

FSSC 22000 v6 Implementing the Changes

This course helps you gain an understanding of the changes of FSSC 22000 v6.

Prerequisite: Familiarity with FSSC 22000 v5.1.
Price: Request a quote
Duration: 4 hours

Client stories

Stephanie Tracey
SMARDT Chillers Pty Ltd

It was a great course run by a great trainer. These courses can have a lot of information and run in such a short time, but it was great.

Michael Gibbs
North Power NZ

The tutor's teaching style kept the team engaged throughout and everyone left the course with a good understanding of ISO 55001 and how their individual roles fit into the framework.

Malcolm Bell
Public Utilities Board

The tutor had prepared well for the session. But no amount of diligent preparation would be enough to fully appreciate the challenges of the context, and displayed the necessary flexibility, subject-matter knowledge, and cunning, to respond to and engage with our challenges.

Nasir Ali
Note Printing Australia Limited

The combined internal auditor training for ISO 9001, 45001 and 14001 was highly valuable and well structured. George demonstrated an excellent knowledge of the standards and delivered the content in an engaging and practical manner, which has greatly enhanced our auditors' confidence and competence in auditing.

© 2026 BSI. All rights reserved.

Meet our expert trainer

Our tutor combines extensive industry expertise with genuine passion and personality. This unique approach creates a relaxed, friendly, and comfortable learning environment, ensuring that you not only gain knowledge but also enjoy the journey.

George Assaad

George has extensive experience in developing, implementing and maintaining management systems for clients across a range of industries.

George's background in Engineering provided him with systematic thinking which is an important attribute for auditors and consultants. George is also very passionate about training and has years of experience as a facilitator.

George's previous employers include Anitech Consulting, Pristine Services, The University of Melbourne and CSIRO.
